### **DETAILED ACTION**

Applicant's amendment filed on November 22, 2006 has been entered. Claims 38, 76, 78, 119, 121, 140, 157 have been amended. Claims 38-56, 76-86 and 119-168 remain in the application. Claims 122, 141 and 160 have been withdrawn and Claims 38-56, 76-86, 119-121, 123-140, 142-159, and 161-168 are examined in the current office action.

### ***Claim Objections***

Objections to claims 38, 119 and 138, identified in the office action Mailed August 18, 2006 have been withdrawn in light of applicant's amendments dated November 22, 2006.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 38-56, 76-86, 119-168 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The amended claims 38, 76, 119 and 138 and 157 include the phrase "sealing the second layer to at least one of *the group consisting* of the package and the first layer". There is no support for the phrase "at least one of the group consisting of " in the original disclosure. The only support found for the sealing of the second layer is in claim 38 of the original disclosure which states "sealing the first layer to the package; and sealing the second layer to at least one of the package and the first layer" which is not the same as the group consisting of the package and the first layer as recited by the applicant.

Claim rejections under 112(second paragraph) of claims 38-56, 76-86, 119-168 for having improper Markush group language have been withdrawn in light of applicant's amendments.

***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office Actions.

(I) Claims 38, 40-56, 76, 78-86, 119, 121, 123-138, 140, 142-157, 159, 161-168 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stockley III et al. (US 5686127) in view of Koch et al. (US 3459117) and Woodruff et al. (US 4522835) and Shaklai (US 6042859).

References and rejections are incorporated herein as cited in the previous office actions mailed August 12, 2005, February 24, 2006 and August 18, 2006.

The amendments to claims constitute removal of the term "the acts of" from the preamble of claims 38, 119, and 138 in response to the objection raised in the office action dated August 18, 2006.

Claims 38, 76, 119, 138 and 157 have further been amended to change the term "sealing the second layer to at least one of the package and the first layer" in the body of the independent claims. The amendment "sealing the second layer to at least one of the group consisting of the package and the first layer" does not constitute a patentable difference in the claimed invention and the rejections in the office actions stated above are still maintained for reasons of record.

Art Unit: 1761

(II) Claims 39, 77, 120, 139, and 158 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stockley III et al. (US 5686127) in view of Koch et al. (US 3459117) and Woodruff et al.
